CATALOG

The best design and quality specially created to your kitchen that will provide you an excellent result saving time and energy.

MATERIAL GUIDE

BERGNER MATERIALS

  **MULTIPLY**
MULTIPLE LAYERS. GREAT HEAT RETENTION

3-Ply / 5-Ply bring together multiple layers of material including Aluminium and Stainless Steel. Heat conducts efficiently, keeping the entire cookware in its best performance.

 **CARBON STEEL**
DURABLE. HEAT RETENTION

Carbon Steel has great durability and heat retention capability. Once thoroughly heated, the heavy-duty carbon steel cookware retains heat for a very long time, saving you a great deal of energy.

 **PRESSED ALUMINIUM**
LIGHT WEIGHT. QUICK HEAT DISTRIBUTION

Press aluminium utilizes compressive force to shape a cookware from a sheet of aluminium, the result is a very quick-heating cookware.

 **CAST IRON**
HEAT RETENTION. GREAT FOR SLOW COOKING

Cast Iron is one of the best materials in terms of heat retention and distribution. It is a common choice for professional chefs for long duration cooking. The material is incredibly durable.

 **FORGED ALUMINIUM**
EVEN HEAT DISTRIBUTION. CORROSION RESISTANT

Forged Aluminium is unique in shaping a thick base, evenly enhancing heat distribution of the cookware with no hot spots.

 **HARD ANODIZED**
HARDENED TO LAST. EXTRA DURABLE

Hard Anodized Aluminium is a hardened variant of aluminium with a very long life-span and scratch resistance. This is hands down the most durable cookware material available.

 **CAST ALUMINIUM**
HEAT RETENTION. ENERGY SAVING

Cast Aluminium can be moulded into a thick strategic shape for the best heat distribution and retention, saving you energy and giving you excellent durability.

 **STONEWARE**
STRONG AND DURABLE

Made from the most robust type of clay. Resistant to chipping, scratches and stains. Baked at 1300 ° C. Excellent thermal resistance: it admits temperatures of -18 ° C and +260 ° C. Light weight. Perfect for daily use. Directly from the freezer to the oven. Avoid thermal contrasts

 **STAINLESS STEEL**
ENERGY SAVING. EVEN HEAT DISTRIBUTION

Stainless Steel is an exceptionally durable material that is virtually impossible to wear. Bonded with an aluminium capsuled bottom, it boasts satisfying heat conductivity.

 **HARD ANODIZED**
HARDENED TO LAST. EXTRA DURABLE

Hard Anodized Aluminium is a hardened variant of aluminium with a very long life-span and scratch resistance. This is hands down the most durable cookware material available.

 **18/10 STAINLESS STEEL**
ENERGY SAVING. EVEN HEAT DISTRIBUTION

Stainless Steel is an exceptionally durable material that is virtually impossible to wear. Bonded with an aluminium capsuled bottom, it boasts satisfying heat conductivity.

 **BOROSILICATE GLASS**
THERMALLY TOUGHENED. PERFECT TRANSPARENCY

Borosilicate glass features perfect transparency and is toughened by thermal treatment. With its strength and heat resistance, this material is well suited for bakeware and other cooking utensils.

COATING GUIDE

BERGNER COATINGS

CERA+

CERAMIC COATING. HEALTHY COOKING

Cera+ brings eco-friendly non-stick performance to today's cookware. The ceramic-based coating can stand extreme heat levels, and is ideal for low-fat cooking.

SILVER+

ANTIBACTERIAL. ECO-FRIENDLY

Silver+ is the latest advancement of ceramic coating technologies. Combining eco-friendly performance and anti-bacterial functions, bacteria growth is effectively halted even after cleaning.

CERAMARBLE

STYLISH MARBLE LOOK. ECO FRIENDLY

CeraMarble is a natural step forward from the original Cera+. Sophisticated marble-style pattern is added to the surface of the coating with reinforced durability.

DIAMOND

DIAMOND REINFORCED. EXTRA DURABLE

Diamond+ Coating is a breakthrough coating made with real shimmering diamond crystals. Diamond+ Coating features excellent durability for extended use. Featuring great non-stick capabilities for easy cooking and cleaning.

GRANITE

HIGH HARDNESS. NATURAL GRANITE APPEARANCE

Granite coating goes beyond its attractive textured look. It gives you the benefits of cooking on hot stone - featuring high hardness, superior abrasion resistance and long-lasting non stick performance.

MARBLE+

DURABLE. SCRATCH RESISTANT

Marble+ coating is an excellent non-stick layer with hardened performance. Cooking with the Marble+ coating is fun and easy, the excellent release capability will let you cook and clean efficiently.

F4 QUANTANIUM COATING

COPPER + DIAMOND + SAPPHIRE + TITANIUM REINFORCED

4 PARTICLES combined to make one of the most resistant and exclusive non-stick surfaces on the market. Copper provides better conductivity. Diamond gives extra hardness. Sapphire brings an extra non-stick and Titanium offers an excellent durability.

PALLATIUM

ULTRA REINFORCED COATING

Pallatium is a three-coat, internally reinforced nonstick that outlast other coatings by 3.5x. Its basecoat is unusually hard while its topcoat is rich in fluoropolymers dedicated to release. Its remarkable durability makes it perfect for everyday use.

TITANIUM

TITANIUM REINFORCED. ALL-ROUNDED RESISTANCE

Titanium coating is a multicoat that incorporates Titanium, giving it all-rounded resistance to almost anything like scratches and chemicals. It has all benefits of top quality ceramic coating, but many times harder.

ASTRON

EXTRA DURABLE. EXTRA EFFICIENT

Astron Ceramic Coating flaunts a dramatic holographic 3D finish, and is a scratch resistant non-stick surface reinforced by real nano diamond.

ENAMEL

RUST PROOF. SCRATCH RESISTANT

Enamel Coating is essentially a vitreous enamel glaze that protects the cookware. It also gives you a cooking surface that is uniform and smooth and very easy to clean.

MULTICLAD

LONG LASTING. EASY TO CLEAN

MultiClad is the cornerstone of the Bergner Non-Stick technology. True to its name, the MultiClad Non-Stick Coating is applied in multiple layers to achieve a more even and lasting release effect.

AQUALON

ECO-FRIENDLY

Aqualon is a new breed of water-based coating that gives you, for the first time on the market, excellent non-stick release function with an eco-friendly PFOA-free production.

DYFLO 3D

HARDNESS + RESISTANCE + CONDUCTIVITY + DURABILITY

Dyflo 3D is a special three-layer splash: High Hardness, high thermal transmission capacity and high resistance against scratches. Recommended for intensive use.

COATING GUIDE

SUPPLIERS COATINGS

TEFLON™ PLATINUM

MOST ABRASION RESISTANT TEFLON™ COATING

The most scratch and abrasion resistant non-stick to date. It contains particles of an extremely hard mineral in a 3-layer structure of thickness >40 microns, so it can withstand metal utensils and even scouring pads.

PFOA CONTENT FREE
HEAT RESISTANCE 220°C / 430°F

TEFLON™ INFINITY

TEFLON™ COATING THAT LOOKS GOOD FOR LONGER

This non-stick coating is absolutely safe and harmless. Its extra smooth surface is perfect for oil-free cooking and cleaning after. It is extra durable for long-term use.

PFOA CONTENT FREE
HEAT RESISTANCE 220°C / 430°F

TEFLON™ SELECT

TEFLON™ COATING FOR EVERYDAY USE

This durable coating is intended for intensive use in busy kitchens. It features an advanced 3-layer coating system with thickness >35 microns, offering outstanding non-stick performance.

PFOA CONTENT FREE
HEAT RESISTANCE 220°C / 430°F

TEFLON™ XTRA

TEFLON™ COATING FOR CONVENIENCE

This economical coating is for cooks who value convenience. It gives you a surface which is easy to clean and with lasting non-stick performance. A smart choice for regular use.

PFOA CONTENT FREE
HEAT RESISTANCE 220°C / 430°F

PFLUON COOKMARK™

HIGH DENSITY. GREAT PRACTICALITY

Pfluo Cookmark™ is a widely-used fluororesin non-stick coating that offers hardness, heat resistance, inadhension and chemical resistance all in one, making any cookware easy to clean and use.

Eterna™

Our longest lasting non-stick performance

Eterna coating is an unique technology, with 10x release capability and 3x durability compared to any coating. Its extreme toughness means it is safe to be used with metal utensils, and is 100% dishwasher safe.

PFOA CONTENT FREE
HEAT RESISTANCE 260°C / 500°F

QuanTanium™

Titanium-reinforced non-stick coating

QuanTanium is the first and only multi-coat non-stick with Titanium. With multiple layers, it out-performs all conventional coatings on scratch, abrasion, wear resistance - giving you a coating that stands up to almost anything.

PTFE CONTENT FREE
PFOA CONTENT FREE
HEAT RESISTANCE 260°C / 500°F

Fusion™ HR

High-release sol-gel 'ceramic' non-stick coating

A sol-gel ceramic coating reinforced with titanium, with the durability and abrasion resistance no other sol-gel ceramic coatings can offer. It does not contain contaminating solvents and it can survive extreme heat.

PFOA CONTENT FREE
PTFE CONTENT FREE
HEAT RESISTANCE 455°C / 850°F

Fusion™ Ti

Titanium-reinforced sol-gel 'ceramic' non-stick coating

New Fusion Titanium nonstick interior takes a giant step forward in durability and resistance to abrasion, far beyond any other sol-gel ceramic coating tested so far.

PFOA CONTENT FREE
PTFE CONTENT FREE
HEAT RESISTANCE 455°C / 850°F

Xylan™ Plus

Reliable long-life non-stick coating

Xylan® is the economical nonstick coating with an attractive, glossy finish. Xylan® is dishwasher safe but also easy to be handwashed as it repels both water and grease.

PFOA CONTENT FREE
HEAT RESISTANCE 260°C / 500°F

Eclipse™

Hard reinforced non-stick coating

Eclipse® basecoat is unusually hard while its topcoat is rich in fluoropolymers dedicated to release. Its offering at least 10 times the durability makes it perfect for everyday use.

COATING GUIDE

SUPPLIERS COATINGS

ILAG® PROFESSIONAL

TOUGH & DURABLE. PROFESSIONAL QUALITY

A high end 3-layer non-stick coating with a noble smooth surface and an excellent abrasion resistance. Its extraordinary long lasting non stick effect and scratch resistance makes it perfect for professional and most intensive use.

ILAG® ULTIMATE

CERAMIC REINFORCED. EXTRA DURABILITY

A multi-layer non-stick coating with ceramic reinforcement. The addition of ceramic ensures excellent adhesion between the layers, and gives the coating its long-lasting durability, abrasion and corrosion resistance for intensive use.

ILAG® PREMIUM

HIGH RESISTANCE NON-STICK FOR DAILY USE

A versatile 3-coat system with a highly resistant top coat suitable for daily use. This coating has a good scratch and abrasion resistance with a very good non-stick effect. Suitable for healthy cooking methods with minimal greasing.

ILAG® ESSENTIAL

2-LAYER NON-STICK FOR DAILY USE

A versatile 2-coat system with a top coat with good resistance against scratch and abrasion. Its good non-stick effect makes it suitable for simple daily use and healthy cooking methods with minimum greasing.

WATER BASED COATING

6 LAYERS OF HIGH TECHNOLOGY

- 1- Stainless steel bottom for use with induction hobs and all other heat sources.
- 2- Water based double external coating.
- 3- 100% recycled aluminium base from items such as beverage cans, aluminium foil, etc.
- 4- Water based anchor coating.
- 5- Water based mid-coating with reinforced mineral particles.
- 6- Water based top coating.

STAINLESS STEEL

MIDNIGHT COLLECTION

Midnight combines the best materials. Its casseroles made of high quality stainless steel offers great durability.

SELLING POINTS

- Non-stick cooking surface
- Stainless steel handle
- Excellent durability

MATERIALS

STAINLESS STEEL

Stainless Steel is an exceptionally durable material that is virtually impossible to wear. Bonded with an aluminium capsuled bottom, it boasts satisfying heat conductivity.

LOVERS

Coffee & Tea

A complete experience: the Coffee & Tea Lovers collection offers a wide range of barista products for all your coffees and teas.

CONCEPT

Prepare a different coffee or tea for every situation. The Coffee & Tea Lovers de Bergner collection is composed of stainless steel, glass, enamel and wood for durability and resistance to temperature changes.

All the products in the range have been carefully designed to respect the method of preparation of each of these beverages and to preserve their intrinsic characteristics as well as their medicinal virtues. Coffee pots and kettles made of wear-resistant stainless steel distribute heat evenly for a full-bodied.

Extend the gourmet experience with double-walled glasses that maintain beverage temperature and prevent burns; stainless steel latte spoons with ergonomic handles; enameled bowls and wooden utensils that will delight your guests. And, you will be able to take away.

With the wide range of items in the Coffee & Tea Lovers collection, you can finally enjoy all the aroma and flavor of your favorite beverage in pieces designed with product-friendly materials that will allow you to obtain the best results.

One summer afternoon, you pick up your favorite book and decide to accompany it with a delicious coffee or tea. Arabica, robust, roasted, herbal tea, fruit-flavored tea, ... whatever your favorite, the Coffee & Tea Lovers collection has the ideal coffee pots and utensils to enjoy a moment of pleasure, either alone or with company. The world of coffee and tea deserves a collection specially designed to enhance all the properties, flavors and aromas to enjoy a gourmet coffee or tea in your own home.

LOVERS

BBQ

Barbecues are a time to connect with your loved ones and open up to them while you prepare that delicious meal together

CONCEPT

The most special moments are those that we treasure deep within us. Those memories and experiences that last and that, over time, bring a smile to our faces, evoking echoes of times gone by when we were happy. First dates, birthdays, celebrations with friends and family gatherings are memories worth reminiscing about... and even more so if there is a barbecue involved.

Barbecues are a time to connect with your loved ones and open up to them while you prepare that delicious meal together. A barbecue, more than a tool for cooking and grilling, is a social experience and a moment of connection, a moment of communion for you and your loved ones.

That's why Berger has created BBQ, a family designed for these special moments, so you can vividly experience those memories once again and create new ones. Through authentic flavours and the smell of embers, BBQ offers a wide range of knives, griddles, cooking utensils and even a barbecue of its own, so that we can accompany you every day to create unforgettable memories.

The most special moments are those that we treasure deep within us. CONCEPTS

Choose among the concepts we have created to form a collection of perfect utensils for your kitchen.

NAVY

NEW
PROJECT

The Navy collection is a complete kitchen set that connects your kitchen with the sea breeze, the long days and enjoying.

CONCEPT

The sea breeze, the long days, the pleasure of enjoying free time and the taste of recipes cooked with care for hours in innovative cookware that exceeds all your expectations.

Equip your kitchen with Bergner Navy, a complete kitchen collection made with the most exclusive materials to develop your passion for gastronomy in pieces designed in a fresh navy blue colour that reflects distinction, elevating your kitchen while developing your culinary creativity to expert levels.

The Navy collection is a complete kitchen set consisting of frypans, casseroles, utensils, knives, cutlery, coffee pots and small electrical appliances ready to offer you maximum practicality and efficiency in the kitchen for each of your daily needs. Pieces specially designed with effective cooking materials such as forged aluminium, the only material to give the base a thick shape, an ideal thickness that allows heat to be distributed and retained in an extremely optimal way.

The stainless steel of the cutlery, knives and kitchen accessories allows to obtain exceptionally durable products that are highly resistant to wear and tear. The collection is complemented by carbon steel, stoneware, aluminium or acacia wood, unique materials for an all-round kitchen.

The navy-style blue tone, together with other colours such as white or wood, will brighten up your kitchen, giving it a distinctive touch of colour. In short, an elegant and resolute set for cooking healthy recipes with lots of flavour.

Versatility in your kitchen: Navy provides solutions to all your needs with a complete range of cookware to develop your culinary and baking skills, as well as putting the latest small electrical appliance innovations at your fingertips for an avant-garde kitchen.

Optimal heat distribution: the frypans and casseroles in the Navy collection are made of forged aluminium, a unique material with a thick base, which gives them great heat distribution power from the base to the edges for cooking great recipes while saving energy and time.

Cook at any place: its dot induction base will be your ally for cooking on any hob on the market, whether induction, vitroceramic, gas, electric or halogen.

Elegant design: the Navy collection is specially designed for your everyday kitchen, giving it a distinguished look in navy blue and sometimes mixed with wood-coloured details to give your kitchen a touch of freshness.

SELLING POINTS

- Optimal heat distribution
- Non-stick coating
- Ergonomic soft touch handle
- Elegant navy blue design

MATERIALS

CERA+ COATING

Cera+ brings eco-friendly non-stick performance to today's cookware. The ceramic-based coating can stand extreme heat levels, and is ideal for low-fat cooking.

FORGED ALUMINIUM

Forged Aluminium is unique in shaping a thick base, evenly enhancing heat distribution of the cookware with no hot spots.

Copperly

NEW
PROJECT

Bring a different and versatile nuance to the kitchen with copper, a warm and earthy shade, in an ingenious collection.

CONCEPT

Bring a different and versatile nuance to the kitchen with copper, a warm and earthy shade, in an ingenious and efficient collection that will make your everyday life easier.

Copperly by Bergner is a healthy, efficient and elegant kitchen that meets all culinary needs with a complete range of frypans, small appliances, utensils and kitchen accessories. Cook tasty recipes with little oil with the Copperly frypan set, made of forged aluminium that distributes heat from the centre.

With the ILAG Essential non-stick coating you will be able to cook with hardly any oil, as no ingredient will stick to the surface for healthy cooking and effortless cleaning, efficient cookware compatible with any heat source so you'll never stop cooking.

In terms of design, the Copperly collection features black and copper coloured lines that will match all types of modern kitchens, both domestic and professional. The earthy tone of copper will bring a calming effect to your kitchen, giving a delicate glow to the different corners of your home. All this, combined with the versatility of the collection, will fill your kitchen with unique moments and recipes to enjoy with your loved ones.

Efficiency and style: the Copperly collection offers kitchenware made from the finest materials for healthy, balanced cooking in a elegant black design with copper accents that will bring shiny details to your kitchen.

Even heat distribution: the forged aluminium used in Copperly frypans provides an efficient heat distribution throughout the frypan, from the centre to the edges, for even cooking of food without hot spots for efficient energy consumption.

Healthy cooking: thanks to the ILAG Essential non-stick coating, you will achieve healthier recipes without using hardly any oil, preventing food from sticking to the frypan, and optimum cleanliness in your daily use.

Maximum practicality: the frypans in the collection have two pouring spouts on the sides to make it easier to pour sauces or juices or to dispose of leftover oil without fear of spillage, which makes the collection extremely practical in the kitchen.

Suitable for all hobs: the dot induction base allows fast and efficient heat distribution on any heat source, whether induction, gas, vitroceramic, halogen or electric, so you can use it wherever you want without worrying.

Versatility: with the complete Copperly collection you can develop your culinary arts through cutting-edge small appliances, as well as utensils and accessories created to meet all your needs in the kitchen.

CONCEPT

EXCALIBUR COLLECTION

The Excalibur collection is a complete casserole set that connects your kitchen with diversity to add colour to your kitchen.

CONCEPT

The the pleasure of enjoying free time and the taste of recipes cooked with care for hours in innovative cookware that exceeds all your expectations.

Equip your kitchen with Bergner Excalibur, a complete kitchen collection made with the most exclusive materials to develop your passion for gastronomy in pieces designed in a fresh navy blue colour that reflects distinction, elevating your kitchen while developing your culinary creativity to expert levels.

The Excalibur collection is a complete kitchen set consisting of frypans, casseroles, utensils, knives, cutlery, coffee pots and small electrical appliances ready to offer you maximum practicality and efficiency in the kitchen for each of your daily needs. Pieces specially designed with effective cooking materials such as forged aluminium, the only material to give the base a thick shape, an ideal thickness that allows heat to be distributed and retained in an extremely optimal way.

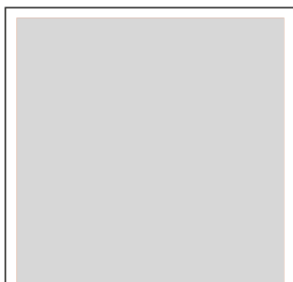

The stainless steel of the cutlery, knives and kitchen accessories allows to obtain exceptionally durable products that are highly resistant to wear and tear. The collection is complemented by stoneware a unique material for an all-round kitchen.

COATING

MULTI MATERIAL

CLICK & COOK COLLECTION

Add a frying pan with removable handle to your kitchen tool collection and make everyday cooking a breeze.

Cooks more comfortably and stores more intelligently: Thanks to the changeable handle, you can cook more efficiently, and store the pans in a **space-saving** way in the cupboards.

Suitable for oven: Indicate temperature that the pan can withstand in the oven (240°C)

From the kitchen to the table:

This concept can be realised by being able to carry the food in the frying pan and leave it on the table, but **removing the handle**, which makes it convenient and saves space on the table, and the possibility to continue cooking by putting the handle in another frying pan.

Easy to change: Show how easy it is to change the pan handle and start cooking.
