## Anycubic Kobra 3 3D Printer

The Anycubic Kobra 3 3D printer is an innovative device that combines reliability, speed and versatility to adapt to the needs of both beginners and advanced users. Designed for precise and complex projects, the Anycubic Kobra 3 offers advanced features to handle the most demanding printing tasks. From high-speed printing to handling a variety of materials, this printer will meet all your needs.

### Super-fast printing at 600 mm/sec.

The Anycubic Kobra 3 features an impressive print speed of up to 600 mm/sec, which saves significant time on large projects. Whether you are printing a simple model or a complex design, the Kobra 3 ensures that the job is completed quickly and efficiently without sacrificing quality. Combined with a powerful cooling system, your prints will be ready in no time, and you'll save up to 34% time compared to standard 3D printers.

## Advanced stability and precision

One of the key features of the Anycubic Kobra 3 is its stability during operation. The use of state-of-the-art guides and reinforced construction ensures even movement and precise layering. No matter how complex the model is, you can count on Kobra 3 to deliver prints with perfectly smooth surfaces and precise details.

## Worry-free printing with automatic calibration

An automatic calibration system with 25 control points makes preparing for printing easier than ever. Anycubic Kobra 3 adjusts settings independently to ensure optimal printing results. This feature not only saves time, but also minimizes the risk of errors, which is especially useful for those who are new to 3D printing.

## Convenient features and intuitive operation

The Anycubic Kobra 3 is equipped with quick-change nozzle fittings, allowing for easy nozzle replacement without the use of additional tools. In addition, the device offers convenient operation via a touch screen that provides easy access to all printer functions. This makes the entire printing process not only fast, but also extremely intuitive.

## Complete user experience

Using the Anycubic Kobra 3, you are assured that every piece of artwork you print will be of the highest quality. The printer is compatible with a variety of materials, and its advanced features allow you to create both simple and highly complex models. This versatile device is an ideal choice for anyone looking for a reliable 3D printer that offers a complete user experience from start to finish.

## Included

- Printer frame
- Base housing
- Print head
- Touchscreen
- Spool holder
- Cable holder
- Wiper
- Bag No. 1 M5\*45 (4 pcs.)
- Bag No. 2 M2\*14 (2 pcs.)
- Bag no. 3 M3\*6 (4 pcs.)
- Bag no. 4 M4\*16 (2 pcs.)
- Bag No. 5 M3\*10(1pc) M3\*8(1pc).
- U-DISK(1pcs)
- Power cord (1pcs)
- Cable organizer (3pcs)
- Filament tube (1pcs).
- Wrench (1 set)
- Allen 4.0/3.0/2.5/2.0/1.5
- Filament
- Nozzle cleaner
- Lubricant

<b>Manufacturer</b>	Anycubic
<b>Model</b>	KB30BKOA-O
<b>Device weight</b>	4.6 kg

Maximum temperature of the heating table	110°C
Maximum nozzle temperature	300°C
Dimensions of the machine	452.9 (L) x 504.7 (W) x 483 mm (H)
Touch screen	4.3 inches
Printing material	PLA, PETG, TPU
Printing speed	600 mm/s max.
Print dimensions	250 x 250 x 260 mm
Power supply	400W

## Productinformatie

Artikelnummer	KOBRA3
Merk	ANYCUBIC
Is on Sale	Nee
