User Manual

20000mAh Portable Power Bank

Model: B653

Package Contents

1 × choetech Power Bank, 1 × User Manual

Specifications

Capacity	20000mAh (74Wh)
Input	USB-C: 5.0V \Rightarrow 3.0A, 9.0V \Rightarrow 3.0A, 12.0V \Rightarrow 3.0A, 15.0V \Rightarrow 3.0A, 20.0V \Rightarrow 2.25A (45.0W Max)
Output	USB-C: 5.0V \Rightarrow 3.0A, 9V.0 \Rightarrow 3.0A, 12.0V \Rightarrow 3.0A, 15.0V \Rightarrow 3.0A, 20.0V \Rightarrow 2.25A (45.0W Max) USB-A1/A2: 5.0V \Rightarrow 4.5A, 4.5V \Rightarrow 5.0A, 5.0V \Rightarrow 3.0A, 9.0V \Rightarrow 2.0A, 12.0V \Rightarrow 1.5A (22.5W Max) USB-C+USB-A1+USB-A2: 5.0V \Rightarrow 3.0A (15.0W Max) USB-C+USB-A1/A2: 5.0V \Rightarrow 3.0A (15.0W Max) USB-A1+USB-A2: 5.0V \Rightarrow 3.0A (15.0W Max)
Total Output	45.0W (Max)

How to Use

Cautions

Please follow the manufacturer's instructions.

Due to the internal battery may pose the risk of fire and burns, please do not disassemble, crush, incinerate, or heat above 60°C/ 140°F

Important Safety Instructions

Warning - When using this product, should always behave as the following:

- Please read all the instructions before using this product
- To reduce the risk of injury, close caution is necessary when the product is used nearby children
- Please do not insert the fingers or hands into this product
- Please do not expose the power bank to water (ex. rain) or cold temperature (snow)
- Please do not use power adapters not recommended or sold by the power bank manufacturer. Otherwise may pose a risk of fire or injury.
- Please do not use the power bank over its output rating. Otherwise overload outputs above rating may result in a risk of injury to persons.
- Please do not use the power bank if damaged or altered. Otherwise it may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
- Please do not disassemble the power bank, and seek only authorized service providers when service or repair is required. Incorrect reassembly may result in a risk of injury to persons.
- Please do not expose a power bank to fire or excessive temperature. Exposed to fire or temperature above 100 °C (212°F) may cause an explosion
- To ensure product safety, please have the product serviced by a qualified repair person using the original manufacturer's replacement parts
- Please be sure to switch off the power bank when not in use.
